Please fill out this form completely

- 1. Male _____
Female _____
- 2. Height _____ft _____in
- 3. Weight _____lbs

4. Chest _____ inches
measure completely around at nipple height with arms at side. Make sure to keep the tape at an equal height around the chest.

5. Waist _____ inches
(measure completely around at navel height) DO NOT "suck in your stomach" Be relaxed

6. Front (Standing) _____ inches
Measure from the second shirt button (the collar button being the first button) down to the top edge of the gun belt in front (center of front)

7. Front (Sitting) _____ inches
Repeat the same measurement as 6a while seated. Sit comfortably. Do not sit rigid or slouched.

**FEMALES ONLY:
SPECIAL INSTRUCTIONS**

Cup Size (A,B,C) _____

10. _____
Females Measure From Center Of Breast to Center of Breast.

11. _____
Measure from Center of Breast to Top of Gun Belt in Standing Position.

8. Back _____ inches
Place the top of the tape as shown. (Position should be 4 inches down from the collar seam) Measure to the top edge of the gun belt (Center of back)

9. Belt to Belt _____ inches
Measure from the top edge of the gun belt in the back, over the center of the shoulder...

... to the top edge of the gun belt in the front. Be sure the tape lies straight down the front & back. (notice that the tape measure on the front lies on top of the shirt pocket button)

Please Note: Front Panel requires a 2" to 2 1/2" gap between the gun belt and the bottom of the vest when standing. This open area is necessary to prevent the vest from riding up when seated. Take actual measurements only...our sizing expert will allow for this
