## POLYETHYLENE RIFLE PLATE

Multi-Hit 10"x12" (25.4cm x 30.5cm) NIJ certified Level III Stand Alone Rifle Plate

A robust construction of compressed Polyethylene produces a lightweight plate that captures and stops rounds more effectively than comparable ceramic plates

Not susceptible to critical damage by dropping

Has a multi-curved, contoured "Shooters Cut" to protect the operators without limiting their movement

Reduces spall with unique construction

Positively buoyant while only weighing 3.2 lbs (1.5 kg)
